

Back to School Edition

August is Bring on Breakfast month in the cafes. Bring on Breakfast adds excitement to the beginning of the school day by offering delicious food that fuels the day. Studies show that breakfast can support a student's learning throughout the day, leading to increased focus, fewer absences and better test scores. Students will learn how to make breakfast fun and impactful with the Discovery Kitchen events in their cafeteria in August.

We also have an exciting addition to our staff. I would like to introduce Chef Kevin Merizalde. Chef Kevin will be working in every school this year meeting with students, training staff and Caterings Chef Kevin and I will be visiting classrooms to demo our monthly Discovery Kitchen. We will also be in your cafes promoting Mood Boost and Student Choice.
